Andre wijaya

Software Engineer || Fullstack Developer || GenBI Member
Bandar Lampung, Lampung, Indonesia

Ringkasan

Hey there! I'm a university student who's all about the code life,
especially when it comes to the backend. Full-stack? Yep, I'm on it
too! I've got this insatiable hunger for learning—always up for a new
challenge. When not making program, catch me diving into a good
read, slaying player in games, or strumming away on my guitar!.

Pengalaman

CV Nusantara Agro Tech
Full Stack Developer
September 2023 - Present (5 bulan)
East Java, Indonesia

Here, I took on the role of a full-stack developer, tasked with creating an
admin dashboard for a technology known as Smart Shaker. Additionally, I was
responsible for developing the backend API to support both web and mobile
platforms.

Generasi Baru Indonesia (GenBI)
Member
Maret 2023 - Desember 2023 (10 bulan)
Bandar Lampung, Lampung, Indonesia

I actively participate as a member of Generasi Baru Indonesia (GenBI) at
the University of Bandar Lampung. Engaging with GenBI has provided me
with valuable experiences and opportunities to contribute to various initiatives
and projects. Being part of this dynamic community has allowed me to
collaborate with fellow members, attend events, and actively contribute to the
organization's goals.

PT. Pindad (Persero)
Frontend Web Developer
Agustus 2022 - Desember 2022 (5 bulan)
Bandung, Jawa Barat, Indonesia

In my fifth semester, I landed my first internship at PT. Pindad, a defense
company specializing in the construction of tanks, weapons, and heavy

equipment. My primary responsibility was to develop a website known as ICSS (Integrated Communication Security System). This website serves the purpose of monitoring all areas within Pindad, featuring CCTV displays and providing alerts in case sensors in the Pindad area are activated.

Lab.IOT(Internet Of Things)Universitas Bandar Lampung
Software Developer
Juli 2021 - Juni 2022 (1 tahun)
Bandar Lampung, Lampung, Indonesia

During my first year at university, I devoted a significant amount of time to the laboratory specializing in the Internet of Things (IoT). There, I gained extensive knowledge in programming, sensors, and various aspects of IoT. Engaging in numerous projects assigned by my seniors further enhanced my practical skills and understanding of the field.
